

Congratulations!

I understand that on March 25<sup>th</sup>, 2008, Governor Gregoire signed the 2008 supplemental State transportation budget (HB 2878). This budget includes \$1.3 million in 2008 toward a suicide prevention barrier on the Aurora Bridge. The budget also proposes \$6 million more for the project in 2009-2011.

I sincerely appreciate your leadership on this important project. Your efforts have successfully brought this issue to the attention of city, county, and state governments. Through the efforts of citizens and government, I am optimistic that the number of suicide incidences on the Aurora Bridge can be reduced.

Thanks again for your all your work on this effort!

Sincerely,

**Larry Phillips, Councilmember**
